Congress of the United States House of Representatives

May 8, 2024

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the City of North Kansas City's Town Square Renovation, for Fiscal Year 2025. The City of North Kansas City is located at 2010 Howell Street, North Kansas City, MO 64116.

This project will renovate the town square located in the block between Armour Road, Erie Street, 18th Avenue, and Swift Street, which is currently underutilized by the community and local businesses. Over the last several years, the city has received requests by local business owners and community members to update the space so it can be rented out or used for local events. The City's Master Plan recognizes the importance of open spaces, such as the town square, as integral parts of the community.

This project is a good use of taxpayer funds because the town square renovation will renovate and re-energize the open space that is currently underutilized. As the city continues plans to develop the downtown area, a renovation of the square will be a key component of the community infrastructure. Improvements will include updates to seating, lighting, streetscapes, replacement of an aging pergola for public events.

This project has a Federal nexus because the funding provided is for purposes authorized by **42 U.S.C. 5305(a)(2)** – the acquisition, construction, reconstruction, or installation (including design features and improvements with respect to such construction, reconstruction, or installation that promote energy efficiency) of public works, facilities (except for buildings for the general conduct of government), and site or other improvements;

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in blue ink that reads "Emanuel Cleaver".
